

C++ code 0.1.2: Driver code with `main()` function → [GitLab](#)

```
2 int main(int /*argc*/, char** /*argv*/) {
3     std::cout << "Dummy \"homework problem\" for NumPDE course" << std::endl;
4     Eigen::VectorXd v = NumPDESetup::dummyFunction(42.0, 10);
5
6     const static Eigen::IOFormat CSVFormat(Eigen::FullPrecision,
7                                             Eigen::DontAlignCols, ",", "\n");
8     std::cout << v.transpose().format(CSVFormat) << std::endl;
9     return 0;
10 }
```
