

C++ code 11.6.8: Implementation of `findSupport()` → [GitLab](#)

```
2 Eigen::Vector2d findSupport(const UniformCubicSpline &f,  
3                             Eigen::Vector2d initsupp, double t) {  
4     Eigen::Vector2d result;  
5     Eigen::Vector2d speed = {f.derivative(-1.0), f.derivative(1.0)};  
6     result = initsupp + t * speed;  
7     return result;  
8 }
```
