

C++11 code 2.15.7: Sub-problem (2-15.c): Setting a single d.o.f. to zero → [GitLab](#)

```
2  auto selector = [] (lf::base::glb_idx_t idx) -> std::pair<bool, double> {
3      if (idx == 0) {
4          return {true, 0.0}; // fix first d.o.f. to zero
5      }
6      return {false, 42.0}; // keep all others
7  };
8  lf::assemble::FixFlaggedSolutionComponents(selector, A_aux, rhs_vec);
```
