ON MATHEMATICS WIKIPEDIA EDITING

Ilya Kapovitch

University of Illinois at Urbana-Champaign

Wikipedia is an amazing resource, reaching millions of readers of all ages, social groups and educational backgrounds. Yet very few professional mathematicians regularly edit Wikipedia. In this presentation we will discuss the basic practical information on Wikipedia editing in general and editing on mathematical topics in particular, including various “rules of the road”, practical tips, social conventions, etc. The presentation will include a live demo on creating and posting a mathematical Wikipedia article in real time.
